- Characteristics of this petitioner:**

4. Economic Revitalization Area (ERA):

The property is not currently located in an ERA. The company is requesting this property be declared an ERA.

5. ERA & Tax Abatements Findings (Real Property):

Indiana Code Section 6-1.1-12.1-3 states that the following findings must be made when considering an ERA designation and the granting of a tax abatement for real property:

- a. Whether the estimate of the value of the development or rehabilitation is reasonable for projects of that nature;
- b. Whether the estimate of the number of individuals who will be employed or whose employment will be retained can be reasonably expected to result from the proposed redevelopment or rehabilitation;
- c. Whether the estimate of annual salaries of those individuals who will be employed or whose employment will be retained can be reasonably expected to result from the proposed redevelopment or rehabilitation;
- d. Whether any other benefits about which information was requested are benefits that can be reasonably expected to result from the proposed redevelopment or rehabilitation; and
- e. Whether the totality of the benefits is sufficient to justify the tax abatement.

6. ERA & Tax Abatements Findings (Personal Property):

Indiana Code Section 6-1.1-12.1-4.5 states that the following findings must be made when considering an ERA designation and the granting of tax abatement for personal property:

- a. Whether the estimate of the cost of new manufacturing equipment is reasonable for equipment of that type;
- b. Whether the estimate of the number of individuals who will be employed or whose employment will be retained can be reasonably expected to result from the installation of new manufacturing equipment;

- e. Whether the totality of the benefits is sufficient to justify the tax abatement.

7. City of Franklin "Tax Abatement Policy" criteria:

The "Tax Abatement Policy" section of the *City of Franklin Community Investment Incentives Summary* states that the Economic Development Commission shall use certain criteria when considering a request for tax abatement. A comparison of those criteria and this request follows:

- a. *Diversification of Local Occupations:* This project will provide a local company with expansion opportunities and growth in their unique sector.
- b. *Diversification of Local Employment:* The project will bring 6 new highly skilled jobs to the community.
- c. *Increase in Local Salaries:* The average starting wage for this company will be \$25.00. The current average wage for Johnson County is \$23.93 so this project will have wages starting above the county average.
- d. *Sustainable Land Use:* The petitioner proposes to make this investment on land that is currently undeveloped.
- e. *Future Community Investment:* The applicant should share with the EDC their plans for future community investment.
- a. *Conformance with the Comprehensive Plan:* The Comprehensive Plan - Land Use Map identifies this property as a Light Industrial Area. Light industrial areas include a variety of employment and production facilities. Uses in this area may include warehouses, distribution centers, assembly facilities, technology centers, research and manufacturing facilities, and professional offices. Light industrial areas are distinguished from manufacturing areas in that manufacturing areas focus on the manipulation of unfinished products and raw materials. Light Industrial facilities generally do not produce emissions of light, heat, sound, vibration, or odor and are completely contained within buildings. Some limited outdoor storage of finished products may occur. Light Industrial areas may also include facilities which are complimentary to their role as employment centers.

The property is zoned IL, Industrial: Light. The "IL," Industrial: Light zoning district is intended to provide locations for light production, assembly, warehousing, research and development facilities, and similar land uses. This district is intended to accommodate only industrial uses that are completely contained within structures and do not involve the outdoor storage of materials or the release of potential environmental pollutants. This district should be used to support the industrial retention and expansion in Franklin.

8. Tax Abatement Duration:

The *City of Franklin Community Investment Incentives Summary* provides that longer periods of abatement on real and personal property may be considered for requests of an exceptional nature. The Summary states that development examples of an exceptional nature include projects that:

- a. Create a new plant or product line for an existing manufacturer;
- b. Creates substantial employment opportunities with higher than average wages;
- c. Increase substantially property values and the city tax base with minimal impact on city services (police & fire protection, schools, utilities, infrastructure, etc.); and
- d. Utilize existing public infrastructure (sanitary & storm sewer, roads & streets, drainage facilities, and other utilities).

9. Requested Effective Year:

The petitioner has requested that, if approved, the tax abatement be for the first year taxes are assessed at an increased assessment rate.

**Staff Comments:**

The Mayor's Office has indicated they are supportive of a tax abatement of 5 years for real and personal property for this project based on the investment amount and the continued growth of a local company.
